DETAILED ACTION

This application is a 371 of PCT/US04/37181 11/16/2004 which claims benefit of 60/523,600 11/20/2003. Claims 1-15, 16-17, and 20-22 are before the Examiner and subject to the following election/restrictions.

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group 1, claim(s) 1, 3-15, drawn to benzothiophene compounds of core structure A.

Election of species with respect to the variables LTB, LP1 and LP2 is required.

Group 2, claim(s) 2, drawn to benzothiophene compounds of core structure B.

Election of species with respect to the variables LTB, LP1 and LP2 is required.

core structure A

core structure B

Group 3, claim(s) 16-17, 20-22, drawn to pharmaceutical methods of using compounds (A).

Group 4, claim(s) 16-17, 20-22, drawn to pharmaceutical methods of using compounds (B).

The inventions listed as Groups 1-4 do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the common technical feature in all groups is the benzylbenzothiophene moiety. This element cannot be a special technical feature under PCT Rule 13.2 because this element is taught in the prior art US 5985895, US 5962698, US 6110963.

Because these inventions are independent or distinct for the reasons given above and there

would be a serious burden on the examiner if restriction were not required; because the inventions require a different field of search (see MPEP § 808.02), restriction for examination purposes as indicated is proper

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

Election made without redefinition of claim variables such as L_m, L_{p2}, and L_{TB} commensurate with enabled discloser in the specification would necessitate further restriction of elected group.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Nizal S. Chandrakumar whose telephone number is 571-272-6202. The examiner can

normally be reached on 8.30 am - 5 pm Monday- Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Janet Andres can be reached at 571-272-0867 or Primary Examiner D. Margaret Seaman can be reached at 571-272-0694. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
